Wedding Photography *& Film*

A husband-and-wife team based in Lake Stevens, serving Snohomish County and the Seattle Eastside. Both of us at every wedding, photo and film from one team.

Two of us, *every time.*

A husband-and-wife team

We are Sunny and Tina. From the first hour of your day we split up, one of us with each of you while you get ready, so both stories get told and nobody is racing across town. During the ceremony one of us holds the aisle while the other works the reactions. Through the reception we trade off, so there is always a camera on the dance floor and another at the tables.

We shoot from different places on purpose. It is why a gallery from us never feels like one angle repeated.

Photo and film from one team

Most couples hire a photographer and a videographer who have never met, then hope they get along at the altar. We shoot both: same planning call, same agreement, same warm look across your gallery and your film, and nobody fighting for the same angle during the first kiss.

The practical things planners ask

Insured. Full liability coverage, with a certificate sent to your venue on request.

Backed up. Backup camera bodies and lenses on every wedding. Your files are backed up and kept for a minimum of two years.

In writing. A written agreement covering hours, delivery and cancellation before anything is booked.

Local. Travel within 30 miles of Lake Stevens is included. Beyond that, a small travel fee applies, quoted up front, no surprises.

Delivery

A sneak peek of 20–30 edited images within one week of your wedding.

Your full gallery within 6–8 weeks, with download and a print release.

Highlight films and full wedding video within 8–12 weeks.

Custom / Bespoke

Multi-day events, destination and South Asian or multi-ceremony weddings, additional hours, heirloom albums and wall art, same-day edits and priority delivery. We build the quote around your day and your budget, just ask.

How many hours do you need? Most couples book 8 to 10 hours, which runs from getting ready through the first dances. Intimate weddings and elopements are usually complete in 4 to 6. We will help you decide on the planning call. It is the most common question we get, and there is no wrong answer.

WEDDING FILMS

Cinematic, colour-graded, *yours.*

What happens when you *reach out.*

01 **Tell us your date.** Text, call, or send the short form on our website. We reply (usually within the hour, seven days a week) with honest availability and what we would recommend for your day.

02 **A 15-minute call.** No pitch. You tell us about the day you are picturing; we tell you how we would photograph it. You decide whether we are your people.

03 **A written agreement.** Hours, deliverables, delivery timing and cancellation, all spelled out. Nothing is booked until you have read it.

04 **A 50% retainer holds your date.** We accept Zelle, fee-free. The balance is due before your wedding day.

05 **Planning.** A timeline call a few weeks out, your engagement session (Classic and above), and a rain plan for your venue.

Good to know

Rain or shine. Plenty of Pacific Northwest weddings are. We bring clear umbrellas, scout covered spots at your venue, and build a weather plan into your timeline.

Both of you get a photographer. In Classic and Signature, dual coverage is not an add-on. It is how we work.

Engagement session. Included with Classic and above. It is also the best rehearsal for feeling relaxed in front of us.

Dates fill early. May through October books 8–12 months out. Reach out as soon as you have a date.
